## THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

Colombia has lodged with the United States a protest against its action in recognizing the independence of Panama and against our interpretation of the treaty of 1846. Italy has recognized the new republic. No news has been heard of the effort to capture Bocas del Toro in the interest of the new republic. The inhabitants of Colon held a great independence celebration Saturday night. Rumors of massacres at Bogota are not confirmed.

Capt. A. T. Wimberly, Collector of Customs at New Orleans, has declined to take up the task of reorganizing the Republican party in Louisiana, and in an open letter scores President Roosevelt for disrupting it by his course toward a negro, which, he points out, has driven leading Republicans over to the Democratic party.

Commonwealth's Attorney Byrd will not return to Jackson for the term of the Breathitt Circuit Court which convenes there today. It is feared his life would be in peril owing to the vigorous prosecution of Jett and White. Mr. Byrd will reside at Winchester and may run for Congress from the Tenth district.

The special election in the Eleventh district to choose a successor to the late Congressman Vincent Boiling was held Tuesday. It is expected that Dr. Hunter's name will be under the log cabin in some counties and D. C. Edwards' in others. Both sides are preparing for a contest in Congress.

Congress convened Monday in extraordinary session. Practically nothing will be done during this week beyond the election of Mr. Cannon as Speaker of the House. The Panama situation may be brought up in the Senate by Mr. Morgan.

The Kentucky Railroad Commission will meet this week to decide both freight and passenger rates for all roads in Kentucky. This will be the first action taken under the McChord law in this direction. The Commissioners will also hear complaints.

Capt. Charles Young, acting superintendent of Sequoia and Grant Parks in California, urges in his annual report that the private land in those parks be acquired by the Government in order to save the giant trees.

It is declared in official circles in Berlin that the story that Russia and Germany have signed a convention for a defensive alliance in the Far East, should Great Britain support Japan, is without foundation.

Mayor-elect McClellan, of New York, will continue as a member of Congress until the time of his inauguration and will bend his efforts toward the passage of the Cuban reciprocity treaty.

The Empress Dowager is said to be preparing to leave Peking for Kai-Fong in view of possible trouble with Russia.

John Alexander Dowle, held his final meeting in New York Sunday night. He has established a church in New York and says he will return in two years.

The Mutual Life Insurance Company, of New York, has filed suit against James L. Blair in the Federal Court at St. Louis for the cancellation of policies amounting to \$250,000, which, it is claimed, were obtained by fraudulent misrepresentation. The company tenders \$38,063, which it claims is the amount of premiums paid, with interest. Blair was formerly the company's attorney.

The Ahrens & Ott Manufacturing Company probably will remove its large woodworking plant in Detroit to Louisville. The change is in consequence of the apparent passage of the constitution.

House of Representatives. It is said 40,000 men will be affected.

A meeting of the Kentucky delegation in Congress will be called this week to discuss committee assignments.

The House Democrats Saturday nominated John Sharp Williams, of Mississippi, for Speaker. The Republicans named Joseph G. Cannon, of Illinois.

The negotiations between Russia and Japan have progressed to such an extent that a friendly settlement is expected to be officially announced at an early date. It is stated that all prospects of war have disappeared.

The stubs were stolen at Bowling Green Saturday night while the Election Commissioners were at supper. The count had been made, but not certified to. The Circuit Judge's race between Bradburn and Galloway will probably be decided in the courts.

Williams and Dearmond will probably be the Democratic members of the House Committee on Rules. Williams and Clark will fill the Democratic vacancies on the Ways and Means Committee and Underwood may succeed Richardson if the former Democratic leader does not care to serve.

Judge Emmet Field Saturday dissolved the restraining order issued by himself in the Hunter-Edwards case on the ground that his court had no jurisdiction. In his opinion he sustained every other contention of counsel for Dr. Hunter. Dr. Hunter left last night for Somerset, saying before his departure that sixteen or seventeen of the Clerks in the different counties would distribute ballots with his name printed under the log cabin.

The case is also certain to be decided by Congress, as the loser will contest.

The latest development in the Panama situation yesterday was the appointment of Philippe Bunau Varilla, diplomatic agent of the new republic to the United States and his recognition by this Government. He arrived at Washington Saturday night and will call on the President today. It is understood that the new republic will assume the canal obligations of Colombia.

It is reported that Colombia is sending 7,000 troops by land to the isthmus. Two American vessels are patrolling the eastern coast of the isthmus to prevent any landing of troops. People on the isthmus are rejoicing over the formation of the republic.

In the Probate Court at New Haven, Conn., yesterday Judge Cleveland announced that he would allow W. J. Bryan to qualify as an executor of the will of Philo S. Bennett. Bond was fixed at \$350,000. Mr. Stoddard, attorney for Mrs. Bennett, protested strongly against Mr. Bryan qualifying as executor and intimated that an appeal would be taken on the question. The lawyers will confer this week to agree upon a form of decree to be submitted to the court for approval. Mr. Bryan will then appeal from the decision rendered Friday by Judge Cleveland.

Not a Sick Day Since

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. for Electric Bitters and determined to try that. ## A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by The Louisa Drug Co.

## Educated Big Sandians.

From Prof. Wheatley's educational column in the Paintsville Commercial we take the following:

Hon. John W. Langley, a native of Floyd County has taken the degree of Master of Diplomacy and had previously taken the degrees of L. L. B., L. L. M., D. C. L. Mr. Langley deserves great praise for his high legal attainments. Other mountain boys should take a lesson from this and try to excel in literary attainments.

We met Dr. A. P. Banfield of Buchanan a few days ago. He has recently taken postgraduate courses in Medicine at London and Paris. The Doctor has completed thirteen post-graduate courses in the leading universities of America and Europe. This is evidence that our East Kentucky boys are capable of wonderful achievements and are not excelled by those of any other country in the world. Patience, industry, perseverance, energy, determination will inevitably bring success.

Charles Elam, of Blaine, Ky., has recently graduated from the Ada, Ohio Normal University with high honors, taking the degree of Bachelor of Science. ## A Scientific Discovery.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by The Louisa Drug Co.

## STRONG TESTIMONY.

Three persons who have bought watches here lately said they found our prices to be less than those of dealers at other places, and that is why they made the purchases here. Our watch prices have always been down to the lowest notch. Recently an order was sent us from Alabama for a watch; another came from a point 265 miles distant. Watches are our "leaders". We now have a larger stock and greater variety than ever before. At small profits the stock must be "turned" often. Come in and help turn it and at the same time save yourself money. Conley's Store.

## CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size, 75c.

So alluring have been the promises of profit in ginseng farming that the subject has been taken up by official agriculturists in various parts of the United States. Many of the discoveries made will be very valuable to farmers who contemplate embarking in the ginseng industry.

If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. For sale by A. M. Hughes.

## HEALTH AND BEAUTY.

A Book That Should Be in the Hands of Every Woman.

Mrs. Eliza Wike, 120 Iron Street, Akron, Ohio, says: "I would be my grave now if it had not been for your God-sent remedy, Peruna. I was a broken down woman, had no appetite; what little I did eat did not agree with my stomach. It is now seven years past that I used Peruna and I can eat anything."—Mrs. Eliza Wike.

Every woman should have a copy of Dr. Hartman's book entitled "Health and Beauty." This book contains many facts of especial interest to women. Dr. Hartman has treated more ailments peculiar to women than any other physician in the world.

## The Best Remedy For Croup.

[From the Atchison, Kan. Daily Globe.]

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and told, but more modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up" the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by A. M. Hughes.

## A Good Name.

From personal experience I testify that DeWitt's Little Early Rider are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with perfect ease. W. T. Easton, Boerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by The Louisa Drug Co.

### Democratic Ticket.

For President in 1904:

JUDGE ALTON B. PARKER,  
—or—

SEN. ARTHUR P. GORMAN.

Kentucky's new State Board of Valuation is one of the most thoroughly honest and capable it has ever had. This board is one of the most important bodies in the State. It is composed of the Auditor, Secretary of State and Treasurer. The members, therefore, are Judge Wilbur Hager, H. V. McChesney and H. M. Bosworth.

It was with much gratification that the Democrats of the mountains of Kentucky saw two of their number elected to serve in very important places in the State government for the next four years. Hager and Hayes as Auditor and Attorney General have been highly honored and we believe will in turn honor their State by faithful, honest and efficient service.

According to the returns as published, Breathitt county gave about 300 less majority to Gov. Beckham last week than it did to the other candidates on the ticket. That is easy to understand. The Governor's efforts to ferret out and run down the assassination cases in that county are very distasteful to certain people out there. The loss of these votes was expected all the time, but this fact had no effect on the Governor.

Maryland went so overwhelmingly Democratic last week that only seven counties gave Republican majorities, and the Legislature is almost solidly Democratic. President Roosevelt took an active part in the fight with the object in view of discrediting Senator Gorman in the Democratic party. As the Senator was leading the fight the President thought the loss of it would prevent his nomination for the Presidency by Democrats next year. But Mr. Gorman won gloriously over all the odds and it looks as though he is the logical man to head the Democratic ticket next year. He is one of the shrewdest, ablest and most conservative men in the party, a leader who has often shown his power in the United States Senate. With only the minority supporting him he has several times forced the majority to do as he directed. He has the confidence of the business men and will be strong with them. In party matters he has always been regular and is therefore in good standing. Roosevelt fears him, but he will have enough to do to get the Republican nomination for himself, without trying to dictate the Democratic nomination.

### DAVISVILLE.

Corn gathering and road working is all the go nowadays. Wash Lemasters, the old time mail carrier promptly visited this office Monday. Britton and Amos Davis spent Sunday at the Head of Rock. Re. Scarberry is back home again. H. S. Castle & Co. have moved their saw mill to Wm. Sparks on the head of France Creek. They have a large set saw and will not move back home until up in the winter. H. S. Castle, who has been very poorly for some time with pneumonia, is slowly improving. Mrs. H. S. Castle is very sick. W. J. Davis was calling on M. A. Davis Monday night. S. B. Nickells went to Paintsville last week.

The returns in Morgan county give Beckham 1,856, Belknap 1,182; for Circuit Judge, Kinner, Dem., 1,856; Burns, Rep., 1,156. Commonwealth's Attorney, Vaughn, Dem., 1,771; Nickell, Rep., 1,256.

A. T. Siler, the Republican candidate for Railroad Commissioner in the Third railroad district claims to have defeated his Democratic opponent, R. K. Hart, by a majority approximating 7,000.

Judge S. G. Kinner's majority in the district is a little over 500. Vaughn's majority, for Commonwealth's Attorney, is a little less.

#### LAWRENCE COUNTY.

The Lawrence county election commissioners, James Q. Lackey, W. A. Copley and Jesse H. Cordie, met last Friday and made the official count for Lawrence county. The result shows very slight changes from the report as published in the News last week. The official majorities are: Beckham, 159. Kinner, 58. Vaughn, 140. Sheridan, 122. Shannon, 111.

The election officers in Fallsburg precinct failed to certify N. B. Hayes' votes, and this reduced his majority to 62.

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. Sold by Louisa Drug Co.

## CHARLEY.

The election here passed off very quietly. Business seems to be progressing more actively than ever before in this part of the county. Chilt Griffith, of Logan, W. Va., came down last week on a visit to home folks, and purchased from Wm. Chapman his half of the J. B. Spencer farm, paying 775.00. Mrs. Roscoe Burton, who has been confined to her bed for quite awhile with typhoid fever, is improving nicely. J. D. and Roscoe Burton came down from Paintsville this week on business. Died, on the 8th, the wife of Harvey Williams. She was sitting in a chair when she passed away. Consumption was the cause. The family has our deepest sympathy. Thomas Perry and family and L. W. O'Bryan and family will move this week to Ohio. We are sorry to have them leave us. Warren Dean is visiting his brother here. John B. Paek has moved near Kise Station. The Sunday School has decided to have a Christmas tree. Revs. Collins and Borders will preach here Monday night. J. D. Burton and wife were in Louisa this week. We think we have one among the finest choirs in our Sunday school in the county. Mose Hickman is moving from Mead's Branch here into the house with his father-in-law, John Paek, Sr. Moore & Mead will move their saw mill here on Life Hays' farm soon to saw ties for David Spencer. There are several teams on the road hauling lumber from Brushy. Blue Hawk.

But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignations are no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by A. M. Hughes drugists. ### A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered LIVER.

THIS IS A FACT which may be demonstrated by trying a course of

## IVORY.

Farmers are busy gathering corn and making preparations for "Old Grim Winter." Teamsters are busy hauling ties and lumber. They make good wages and seem satisfied and contented. Peyton Blackburn is building an addition to his house which adds much to comfort as well as beauty. Tom Frasley is boss carpenter. Capt. Ira Hale is building him a new house which, when completed, will be a fine place of carpenter work and possess many modern conveniences. George Frasley is chief carpenter. Lacy Blackburn, after several weeks of typhoid fever, is able to walk around. Since the nuptial feast, Charley Hale has built a new house on front street and will soon be happily domiciled therein. Rev. and Mrs. Dave Thompson, after a visit to friends and relatives here, have returned to Charleston, W. Va., where he will enter on the duties of his church work. Mr. Dave Moore, of Mattie, will begin work repairing and remodeling Willie Martia's house. Our town is certainly booming. Since our last communication there have been several weddings in town which we will now report: Lacy Blackburn and Miss Emma Cur-nutte were the first, followed by Charley Hale and Miss Annie Blackburn; then came Lon Workman and Miss Lora Laney, and last, but not least, Rev. George Thompson and Miss Alma Justice. They are all highly respected young people and will, undoubtedly succeed in life. Uncle Mike says "he likes to see the good work go on." Eli Gusley is our leading horse trader and will Robinet our chief "possum hunter." He says he will soon have fifty dollars worth of pelts for sale.

## BUSSEYVILLE.

Garfield Berry, the twenty-year-old son of Rube Berry, of Adams, died last Saturday night. He was a victim of typhoid fever, being the fourth member of the family to take the disease. His agony lasted about twenty-three days, when death relieved him. The other three parties are slowly improving. Deceased was an exemplary young man who sought and found peace with God and died in the full faith of a living triumph. The surviving family have the sympathy of all.

Russell Workman, whose accidental shooting and wounding we mentioned last week, is not doing so very well just now. Amputation may be necessary yet.

Profs. Edmons and Harvey were here last Monday night with a magic lantern show; their entertainment was rather interesting. Johnnie Thompson, while trying to prevent his team from running away, lost his place on the wagon and falling to the ground was run over by the wagon, and so seriously injured that he has not been able to be out this week. At last accounts he was slowly improving.

W. D. O'Neal, Sr., while visiting friends on East Fork, two weeks ago was taken sick, and has not, as yet, been able to be brought home. The last news were not very encouraging, but we hope there will be no serious result. His daughter Miss Lizzie is with him.

Married, at the residence of the bride's mother, the widow Laney, on the 5th, Mr. Lon Workman, to her daughter, Miss Lora, ages 20 and 19 years respectively. They have the best wishes of all Buckskin Bess.

### CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 2c; regular size, 7c.

# SMALLPOX WARNING.

## Health Officer Calls Attention to the Law and Issues Warning.

It has been reported to the Board of Health that some mild cases of smallpox have developed on Bear creek, in this county, and that physicians find it impossible to enforce the necessary isolation and precaution to prevent a spread of the disease, because the victims are not willing to abide by their instructions.

The attention of these people and the public in general is called to the very stringent laws on this subject, and the heavy penalty to which everyone is liable who goes around with a contagious, eruptive disease. The law requires such patients to avoid subjecting others to the contagion. It is the duty of magistrates as well as other officers to enforce this law and it is our intention to see that it is strictly applied. An epidemic of smallpox is a serious thing in any aspect. Even in mild form it is a plague to be dreaded and fought. The expense of caring for and stamping it out is very heavy, and is liable to bankrupt any county in which the disease gets a good foothold.

We are now sustaining a quarantine at Webbsville against Willard, in Carter county, where there are several cases.

We warn everyone who becomes exposed or falls a victim to any disease resembling smallpox to comply with the requirements of the law, and thus avoid prosecution.

A. W. BROMLEY, Health Officer.

We, in common with his many Louisa friends, are glad to note the responsible position in which Sam Strachan, formerly a Louisa boy, has just been placed. Sam was once a devil in the News office. After that he degenerated into a railroad man and is now known as one of the very best in the business. The following from the Indianapolis News tells of his new position:

"A new fast freight office—the Blue Ridge Despatch—was opened in room 22 of the Postal Telegraph building today by G. W. Willis, traveling freight agent. Samuel Strachan, formerly of Huntington, W. Va., will be in charge of the office. The company will operate into this city with the Big Four and the C., H. & D. and will accept fast freight for any point on the Central railroad, of New Jersey; the Philadelphia & Reading road, the Western Maryland, the Norfolk & Western and the Chesapeake & Ohio. The principal office of the company is in Cincinnati."

A meeting of the stockholders of the Blaine-Louisa Telephone Company was held at Adams yesterday to decide what to do with the line. It is out of repair and the purpose of the meeting was to decide whether to sell the line or assess the stockholders for the purpose of making repairs. The meeting was still in progress when the News went to press.

The Ladies Aid Society of the Louisa Baptist Church will have market day every Saturday, beginning Nov. 14th, in P. H. Vaughan's store window. # Damages Fixed on Lock Site.

On Wednesday of this week the Commissioners appointed by the U. S. Court to fix the valuation and damages of the land involved in the condemnation proceedings against J. P. and U. G. McClure, visited the property and made up their report. They placed the value and damages at \$1500, the greater part of the amount being for damages. There are six acres of the condemned land, running along the river bank. It is to be used as the site for Levisa Fork Lock No. 1. The case is somewhat peculiar, and the damage that will result to the owner is much greater than would be apparent from observation. The timbered bank of the river at that point, the course of the current, and other existing conditions have made this an especially good point for timber men to stop over night, and the revenue from this has been a very considerable sum to these people each year. The seizure of this six acres destroys this harbor and the business derived by reason of it. This site is eight miles above Louisa.

The commissioners were G. W. Gunnell, W. N. Sullivan and W. D. O'Neal.

The land on the opposite side of the river was purchased without condemnation proceedings. The matter of sites for the two locks in Tug and Levisa are now practically settled, and the contracts will doubtless be let some time this winter.

## A CHILD LOST.

Eleven-Year-Old Son of Lawrence County Man Lost in Cincinnati.

Lafayette, the eleven-year-old son of Thomas V. Salter, formerly of this county, but who now resides in Cincinnati, has been missing since Sunday morning Nov. 9th. That morning he said he was going to Sunday school with his little sisters, but when the time came they called for Lafayette and no answer came. Still they thought he was out playing with some of his little friends. Evening came on and still he did not return. By that time the family was very uneasy about him and notified the police. Not an eye was closed. Cincinnati was searched. No description of a child like him can be heard of except the wharfmaster described a little fellow standing on the bow of the Courier. He expressed a wish one day last week that he could visit friends in Kentucky, so his parents thought it might be possible that his intention was to go that day, although he said nothing about it. It is believed he has been kidnapped or possibly fallen into the river. But there are so many people always around the wharf they say he would have been seen by some one if he had fallen in, but we only hope he is safe somewhere. The police are still searching but can find no trace. He has been going to the Guilford public school on Sycamore street.

He had been with some other boys to Burnet Woods several times and we thought he might have gone there and wandered around until dark had overtaken him, but that was the first place the police went and they could hear nothing of him. The family are all griet-stricken.

The last was seen of him was at his home on 323 E. Third St., Cincinnati, O. The police still have hopes of finding him alive.

I hope they will find my little brother alive and well. His Sister Mary.

A special to the Courier-Journal from Jackson, Breathitt county, says:—

"Jackson has risen at last to the dignity of a city. The new electric light plant is completed, and to-night the electric lights were turned on, illuminating the town to its innermost recesses. At the election yesterday the proposition to bond the town for street improvements was carried by a large majority, there being only one vote against it."

The credit of this improvement, as well as others recently made at Jackson, are credited to Tom Hiner, a young lawyer of that place. Louisa people knew him a few years ago as a bright little boy in knee trousers. He is the son of Rev. Hiner, who was formerly pastor of the M. E. Church South at this place, and who is now serving his fourth year as pastor at Jackson. Tom was elected to the position on the Board of Trustees of Jackson made vacant by the assassination of James B. Marcum.

The stock law vote in Bear creek precinct was in favor of the measure. In Fallsburg it failed to carry, as it also did in Blaine and Swetnam.

# RED ONION RAID.

## Lively Times Over the Arrest and Delivery of Four Offenders.

There were strenuous times in Louisa from Tuesday evening to Wednesday afternoon, over the arrest of some "Red Onion" operators and an attempt to take them to Wayne, W. Va.

On Tuesday, John Meek, County Attorney of Wayne, and Jailer Walker, came over here with requisition papers for Victor, Fred and Grover Caperton and John Dameron, who are under indictment in Wayne county for selling liquor. The offenses were committed in conducting the notorious places below Louisa on the West Virginia side of the river. They have evaded the West Virginia officers by keeping a sharp look-out and fleeing to Kentucky when in danger of arrest.

The necessary papers were placed in the hands of Deputy Sheriff Jesse Cyrus, one of our best officers. With some assistance he made the arrests just before dark, shortly after the fellows had quit business for the day and landed on this side of the river. They resisted all the way up the road and the scene was enlivened by the help of two women, said to be Panola Ross and Lute Wellman, who were assisting the prisoners in their struggles. The latter had pocket knives and made a desperate attempt to use them near the Arlington Hotel, when Marshal Richard Stone appeared on the scene and used the butt of a large revolver on their heads with such effect that they were quickly subdued. He and another officer received slight cuts. The men were then landed in jail.

Wm. Caperton, father of three of the prisoners, arrived next morning from down the river. He went to the jail, accompanied by a barber, and asked Jailer Al Hays to allow his sons to come out into the second story of the Jailer's residence and have their heads dressed. The Jailer says he agreed to this (after receiving a secret order "grip") upon the promise of Caperton and some friends with him that the boys would go back into the jail without resistance. Whiskey was given the prisoners, and after their heads had been dressed the jailer says he started to put them back in jail, when the father drew a pistol from his pocket and gave it one of his sons, telling them to "die and go to h—!" rather than go back to jail. The others tore up bricks from the hearth, and pandemonium reigned. Hays had already unlocked the jail door, and calling a deputy to guard it he stepped away, when Smith, one of the desperate characters arrested recently near Richardson for horse stealing and housebreaking, forced his way through the door and jumped out of a window. He was rapidly making his escape when some one called to Marshal Stone, who happened to be up the street in the direction he was running. Dick leveled a large revolver at Smith and he very reluctantly stopped. He is one of the men charged with entering Mordecai Williams' residence, as reported heretofore.

After a siege of an hour or more Dameron and the Capertons agreed to go back into the jail. It was found after they were in that they were armed with knives and bricks, and Victor had a pistol. Soon afterward the officer attempted to go into the jail to handcuff the men and take them to West Virginia, but were resisted so vigorously that it was two hours or more before the object was accomplished, and then only at the point of a pistol. One of them threw a brick at a man who started in at the door, narrowly missing his head. Sheriff Cordle agreed with them that he would take them out himself, without the assistance of Cyrus. They were handcuffed in pairs. Upon reaching the top of the grade the Capertons wanted to go home for a few minutes, under pretext of getting something. The Sheriff allowed them to parley for some time, and finally one of the boys slipped his hand out of the trace chain that was around his wrist and both of them ran. After a chase of two squares one was captured, but the other (Grover) is still at large. Very few of the disgusted crowd present joined in the pursuit. The three were taken across the river and delivered to West Virginia officers. As they went down the grade, a small brother of the Caperton boys threw a brick and struck Marshal Copley on the head, knocking him down.

The women who took such an active hand Tuesday evening spent the night in the city cooler, and our efficient city officials have brought all the other offenders before the bar of Justice, including the boy who threw the brick, and a companion who was similarly armed.

We have contended all along that this illegal liquor traffic along the border could be broken up by the officers of the two states working in harmony, and this proves that it can be done. We believe the end of it is now in sight. It is to be hoped, also, that some of our officers have learned valuable lessons from their experience.

# McGinn's Surrenders.

Lucien McGinnis, the traveling salesman who last week shot and probably fatally wounded A. W. Preston, a prominent merchant of Wayne county W. Va., has surrendered to Squire Smith at Lavallette, and was placed under heavy bond to answer an indictment. Preston, the wounded merchant, is yet hovering between life and death. The bullet penetrated his left breast and so serious was his condition, that for two days he was unable to speak. Preston is a prominent democrat and was one John Holt's strongest supporters at the last democratic state convention in Parkersburg. McGinnis is a republican. He went to Kentucky immediately after the shooting but decided to return and surrender.—Cattlettsburg Press.

## Financial Statement.

Louisa, Ky., Oct. 10, 1903. The total indebtedness of the county of Lawrence on the 10th day of October, 1903, including bonds, interest bearing claims and their indebtedness was \$52,395.60. Apply as payment or assets of the county the amounts paid to the County Treasurer and the amounts yet due from the Sheriffs on the 1901, 1902, 1903 and 1904 levies amounting to \$45,657.15, and the amount due from A. J. Wilson's sureties, \$50.00, and the value of the road machine, county mules and county tools amounting to \$1200.00, will leave the indebtedness of the county approximately \$5,391.45.

There has been created for the bonded indebtedness (amounting to \$6,523.05) a sinking fund which will pay the same in eight years.

At the Oct. term, 1901, the R. and B. fund was overdrawn \$2,705.61 (as shown by Conley and O'Neal's report) and at the Oct. term, 1902, there were allowed R. and B. claims amounting to \$7,549.82 for work done prior to January 1st, 1902. The total amount of the R. and B. fund that was overdrawn and for work done and contracted for prior to January 1st, 1902, was \$10,255.43.

There has been \$5,018.53 of R. and B. claims allowed for work done since January 1, 1902.

After applying the levy of 1903 the R. and B. fund is overdrawn \$8,802.14, but the amount not otherwise appropriated out of the 1904 levy can be used to reduce the overdrawn R. and B. fund.

There was a surplus of the Common fund of 1902 levy of \$2,250.55 (as shown by Conley and O'Neal's report) but there had been debts created prior to January 1st, 1902, amounting to \$2,837.41 payable out of Com. fund that were allowed at April and Oct. terms, 1902.

There was a surplus of Court House fund out of 1902 levy of \$800.25 (as shown by Conley and O'Neal's report).

At the Oct. term, 1902, the C. H. fund was merged into the Com. fund.

There was allowed at the April and Oct. terms, 1902, out of the 1902 levy \$458.93. After adding the surplus C. H. fund, \$341.32, to the Com. fund and applying the Com. fund of 1903 levy the Common fund is overdrawn \$1,165.10, which can be paid out of 1904 levy.

ADD SKREENS, Clerk L. C. C.

When the present officials were sworn in January 1, 1902, instead of having at least part of the 1902 levy to pay the expenses of the county for that year the actual indebtedness created and appropriated in excess of the 1902 levy was, \$10,042.04.

The sheriffs for the years 1901, 1902, 1903 and 1904 have not made final settlements for any of the above mentioned years. When made, with payments in full, the balance due from county will be \$5,391.45. This includes all of the old indebtedness and the claims that were allowed in 1902, 1903 and 1904.

## OUR NEIGHBORS.

Mrs. T. J. Roberts died at Paintsville last week after a long illness.

The wife of attorney B. H. Conley, at Paintsville, has returned from the hospital at Cincinnati, much improved. Her complete recovery is now hoped for.

The C. & O. railroad expects to have trains running into Paintsville by January 1st, and to Prestonsburg about a month later.

The appointment of Alex. Bl-hop to fill the vacancy which has existed in the Mingo county court for several months seems to be giving universal satisfaction.—Mingo (W. Va.) Democrat.

Vance and Meadows, the young men who killed an As-syrian ped-dler on Island Creek last week, were indicted in the Logan circuit court and given a trial immediately afterward. Vance was sentenced to the penitentiary for life and Meadows given a ten years sentence.—Mingo W. Va., Democrat.

Marshall Thomas, of Dover, and a posse of citizens were called upon to arrest Lee Vanhoose, a shantyboat man of Catlettsburg, Ky., who was charged with beating his wife. Vanhoose in resisting arrest was literally shot to pieces about the face, breast and one eye. The shooting was done with a shotgun.

P. E. Vaughan, a sub-contractor under Carpenter and Boxley, railroad contractor on the Big Sandy extension of the N. & W., absconded Wednesday night owing Carpenter and Boxley \$3300 and several smaller sums to various other persons. Carpenter and Boxley have instituted attachment proceedings against Vaughan and will hold all his machinery and apparatus, but state that this will not be sufficient to pay his indebtedness.—Mingo W. Va., Democrat.

Our people were aroused from their peaceful slumber on last Monday night by the alarm of fire. It was found that the fire was in the produce house being occupied by Hiram Roberts. The building was destroyed.

It is thought by Mr. Roberts that his loss will exceed \$1500 in produce, consisting of glassing, feathers, wool, eggs, hides and sewing machines. Syrus O'Brien, John Spradlin and Julius O'Brien are in jail charged with the burning of the house.—Commercial.

Reports from the C. & O. coal fields indicate that the operators there are having difficulty in securing cars to transport the output to market. The operators in the N. & W. field are experiencing no difficulty in getting cars at the mines, but are having trouble in getting the products to the markets on account of the congested state of other lines. This is alleged to be due to an effort on the part of the Pennsylvania system to curtail the coal output on the N. & W. and in the C. & O. territory.—Mingo Democrat.

A little energy infused into any movement has a wonderful effect. There is no doubt but that the Chesapeake and Ohio Railway Company intended to locate the Paintsville depot in the Bud Stafford bottom on the south side of Paint Creek. The resident engineer had orders to lay off the depot grounds on the Stafford property. While this was being done James Warden Turner and Frank H. Yates of Louisa negotiated a deal for the Mont Preston land below the mouth of the creek and set about to have the depot site changed. It is now almost definitely known that the depot will be on the lower side of the creek and in nearer proximity to Paintsville. If this good news should prove true, it simply demonstrates what

push and energy will accomplish. Messrs. Turner and Yates will not let the depot leave us if they can prevent it.—Paintsville Herald.

Sam Hereford, of Prestonsburg, ex-representative from the Floyd district, and Miss Octave Leslie, daughter of K. F. Leslie, were married at Pikeville, a few days ago.

On last Sunday in West Virginia, opposite Mt. Sterling, on the Kentucky and West Virginia line, Jas. Starr fatally shot Rile Maynard in the abdomen with a .45 calibre revolver. The particulars more fully we failed to learn, but we are told both were intoxicated and became engaged in a quarrel in which Starr shot Maynard. Both are of respectable families and we are very sorry this has occurred. The last report from Maynard is that he cannot recover.—Martin County News.

F. P. Allen, of Lawrence County, and Miss Gussie Brown, one of Paintsville's most charming young ladies were married here Wednesday evening at the home of the bride's father, Mr. F. A. Brown. The wedding was a great surprise to our people. The young couple left Thursday for their new home in Lawrence County. The bride is one of our best young girls and Paintsville regrets to see her leave and congratulate Mr. Allen on his wise selection. The groom is a merchant and has a store on Georges Creek. We extend to them our congratulations and their take with them the best wishes of our people.—Commercial.

Inez, Ky., Nov. 6.—G. W. Jarrell carried Martin county Democratic for Clerk of the Circuit Court, notwithstanding the county is over 500 Republican, and only three men voted for Jarrell. William Hale was the Republican nominee, and because of the political odds the Democrats gave him no opposition. Hale forgot to comply with the law in the matter of procuring a certificate of qualification from the Circuit Court, and Jarrell being the only person in the county holding this certificate except the incumbent, he induced three men to write his name on the ballot which under the law gave him the office.—Courier Journal.

At a meeting held at the parsonage of the M. E. Church, South, at Rupert W. Va., the McClung Monumental Society was organized and the following officers were elected: Rev. W. H. Austin, president; H. N. Shawver, vice president; L. E. McClung, treasurer; and Homer McClung, Secretary. The object of this society is to raise funds for the erection of a suitable monument at the grave of the late Rev. S. F. McClung, D. D. Friends of Christianity, members of the Western Virginia Conference, and all who may wish to contribute a slight token of respect to the memory of this valiant soldier of the cross, your aid is hereby solicited to assist this society to accomplish the object of its organization, and thus to perpetuate the honored name of our beloved brother.

All funds should be sent to Secretary, Homer McClung, at Rupert, W. Va. He will acknowledge receipt of all contributions.

Frankfort, Ky., Nov. 5.—Benjamin Unthank, a young Democrat of Harlan county, who was a caller at the State Executive Department today, tells a story of Republican methods as practiced in that county in the recent election at Woolen's Creek precinct, eight miles from the county seat, and early in the day was run out of the polling place, together with the other Democratic officer of election, because he would not furnish ballots to halfgrown boys who were brought in to vote and who were not willing to swear that they were twenty-one years of age. He was threatened with drawn pistols, he says, until he left the polling place, when the Republicans supplied his place with one of their number. That night he received information that if he did not sign a certificate from the precinct he would be killed. Friends advised him to leave the county until the result in the State was ascertained.—C. J.

We are informed that the town of Ceredo is under quarantine, the officials of Kenova being the first to take action. The small pox situation at Ceredo has assumed the form of an epidemic, new cases developing daily. One reason for the serious condition is the refusal of the citizens of that town to be vaccinated, as those who have been vaccinated are almost exempt from the disease.

The schools at Kenova have been closed and the Camden Interstate cars take on and let no passengers off inside the corporate limits of Ceredo.

It seems that Ceredo has dealt with the smallpox epidemic question as she did with the water works question—let half the town burn up and then took measures to provide for water works. Their action was the same in both cases, and now since their town is overrun with smallpox and quarantined by its neighbors, its officials may get to work and stamp out the disease.—Catlettsburg Daily Press.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in no many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer. In this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and one dollar sizes are sold by all good druggists.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often a rare example of the evils attendant on the possession of great wealth. But millions are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the laboring classes. Dyspepsia and indigestion are rampant among these people and they suffer far more torture than the millionaire who has to avail himself of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty years. August Flower restores the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your state. Trial bottles, 25c; regular size, 75c.

If you would excel in your particular line of work, you must love it. If you cannot do this, it is better that you change your occupation. Life is always worth living to the man who loves his work.

Cured of Piles After 40 Years. Mr. C. Haney, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. Sold by The Louisa Drug Co.

There are a good many men and women who are making more clear profit from an acre devoted to poultry than a good many farmers make from forty acres in ordinary crops.

## Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture is the form of a label on the wrapper of every bottle of Scott's Emulsion you buy. **SCOTT'S BOWNE, CHEMISTS, 409 Pearl St., N. Y.** 50c and \$1; all druggists.

## Prevention of Consumption.

In the second article issued by the Ohio Society for the Prevention of Tuberculosis, Secretary C. O. Probst says that consumption is not contagious, and that the germ is not given off in the breath except by coughing or loud speaking, or by the skin, or by any of the secretions of the body, except from the lungs.

He adds: "When the bowels or kidneys are off color, or where there are discharges from tuberculous eyes, this is not true; but in consumption, until late in the disease, at least, the lungs, as a rule, are alone affected."

Of the precautions necessary to prevent the spread of the disease he says:

"Care for the sputum properly and promptly and the patient will not endanger others. The consumptive has obligations here which he should consider. If he will not, when the way is pointed out, take the necessary precautions to protect society, he must expect society to resort to measures to protect itself. He will be ostracized—he may be isolated."

"But if a consumptive has no regard for family or society in this matter, he should know that self-preservation should prompt him to do it. He may infect himself. One lung may be effected and be on the road to recovery. If he is careless of disposing of his sputa he may inhale into the other lung some of the germs he has cast out, and thus start the disease anew."

Probst praises the new city system of requiring reports of tuberculosis cases. He says there is no middle-class interference nor restriction of the affected person's liberty but houses are disinfected and instructions given as to the care of the disease, etc.

Referring to the danger of getting tuberculosis from food he says that it has been estimated that fully 50 percent of cows in Ohio have the disease. Germs may appear in the milk or flesh. While Dr. Koch claims that the disease cannot be transmitted from man to animal or vice versa, Probst says many farmers dispute this, and advises precautionary measures pending further investigation. A temperature of 180 degrees will destroy the germs. He advises a rigid inspection of dairy cows.

A Policeman's Testimony. J. N. Patterson, night policeman of Nashville, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by Louisa Drug Co.

Doesn't Respect Old Age. It is shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. LAUREL HILL. The death angel has visited the home of A. A. and Della Diles and taken little Elma, their three-year-old son. It was brought from Elliott to this place for burial. The little one suffered two weeks with scarlet fever. All was done that kind and loving hands could do, but all in vain. The Lord saw fit to take little Elma home where there is no fever to burn the brow. Christ said, "Suffer little children to come unto me and forbid them not," why, then, should we weep for Elma? The little one seemed to be warned of his death. When well, his grandfather, Elias Palmer, was arranging to move to Whitehouse and the child was over there and sold to his grandpa, "when you move I'll be gone." And sure enough it was gone to Jesus before they moved.

John P. Moore and family, of Elliott county, visited relatives here last week.

G. K. Moore went to Whitehouse Friday and returned Monday.

PAINE'S CELERY COMPOUND

Does a Wondrous Work for a Lady Who Was Almost Crazed with Pain and Suffering.

It is well known that terrible rheumatism, sciatica, and neuralgia cause more helplessness, acute suffering, and agony, than any of the other diseases that afflict humanity. The great medicinal virtues of Paine's Celery Compound make it the only trustworthy specific for the cure of all forms of rheumatism and neuralgia. Thousands of strong testimonial letters from the most prominent people of the land, prove that Paine's Celery Compound has banished these terrible fatal troubles when all other treatment has failed. Mrs. Margaret Bethel, of Brainerd, Minn., after thirty years of agonizing tortures had a desire to end her life, if it was the will of Heaven; she almost prayed for the time to lay it down. Heaven-directed, she made use of Paine's Celery Compound, and is enjoying true life once more. She says—

"For thirty years I have been a great sufferer from neuralgia in the head, and also with rheumatism in the whole body. I began taking Paine's Celery Compound and soon found I was much better. Before taking the Compound, my life was such a burden that I almost prayed to lay it down. I was bedfast every two weeks with horrible pain in the head, back, and neck, until I was almost crazed. I am able to do harder work and more of it today than for twenty-five years. I am really enjoying life again, thanks to Paine's Celery Compound. I am satisfied that my life has been prolonged many years by its use."

**Steepled Against a Hot Stove.**

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than a half hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by A. M. Hughes.
